SELEE Product Information Sheet

For Safe Handling and Disposal

Introduction

Name of Product:
Titanium Foam

Product Use:
Electrode separator, various

Contact Information:
SELEE Corporation

Address:
700 Shepherd Street
Hendersonville, NC 28792 U.S.A

Telephone Number:
+1 (828) 697-2411
+1 (800) 438-7274

NOTE: This product is considered an "article" per OSHA 29 CFR 1910.1200 (HCS) and hazard communication is not required. Since it is in the best interest of the consumer that information about this product be readily available, SELEE Corporation has listed all information pertinent to the safe handling and disposal of this product for its intended use and foreseeable misuse. The product is a sintered metal foam material with individual components bound in a metal alloy and is considered non-hazardous.

Composition

Component Name
Titanium foam filter

Personal Protection and Exposure Controls

Engineering Controls:
A well-ventilated area is recommended for use.

Personal Protective Equipment (PPE):

Eye Protection:
General handling of the product: cutting or damaging new or spent metal foam may generate metal foam dust particles that can pose a mechanical risk to eye injury. Safety glasses should be worn.

Skin Protection:
Gloves should be worn due to the abrasiveness of the metal foam.

Respiratory Protection:
Metal foam dust particles could become airborne during handling and pose a risk for inhalation. Use in a well-ventilated area. Using professional judgment, a respirator can be used.

Handling and Storage

Precautions for safe handling:
Use appropriate industrial hygiene and safety practices by washing hands before breaks and at the end of shifts.

Conditions for safe storage, including incompatibilities:

Store in dry area. Avoid dust generation.

Possibility of hazardous reactions:

None known

Conditions to avoid:

Do not store near acids or reactive substances.

First Aid Measures**Eye:**

Safety glasses should be worn to protect against mechanical eye irritation. Flush eye with water or saline solution. Consult medial professional if irritation persists.

Skin:

Proper gloves should be worn to protect against abrasion.

Inhalation:

Remove person to fresh air. Do not inhale dust.

Ingestion:

Not a typical mode of exposure.

Physical and Chemical Properties**Physical State and Color:**

Solid metallic filter; Gray in color

Specific Gravity:

Approx. 3.7-4.2

Chemical Stability:

Stable

Hazardous Decomposition Products:

Metallic or metal oxide fumes and dust may be produced during welding, grinding or cutting.

Disposal Considerations**Waste disposal:**

Do not dispose of using sewage disposal. Material should be discarded in proper waste receptacles OR in accordance with Federal, State and Local regulations.

Transport Information

U.S. Department of Transportation (DOT): Not regulated as a Hazardous Material.

United Nations Model Regulation on the Transport of Dangerous Goods: Not regulated as a Hazardous Material.

Regulatory Information**U.S. Regulations:**

None for sintered metal foam.

International Regulations:

None for sintered metal foam.

Additional Information

Changes made after revision: None, this revision is new.

The above information is believed to be correct, but does not purport to be all-inclusive and should be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product.
